

Reliable Power Delivery Inside Your Panel

Louisiana User Group
March 2018.

THE REYNOLDS
COMPANY
ELECTRICAL SUPPLY

Louisiana Users Group Let's Get Connected

Reliable power delivery is essential in modern manufacturing facilities. But reliable power delivery is not just about power distribution between your control panels. It is also about reliable power delivery inside your control cabinets.

Join us for our March User Group seminar as we highlight solutions for reliable power delivery within your panels. We'll look at the following critical components.

- **Bulletin 1606** – Switched Mode Power Supplies
- **Bulletin 1609** – Industrial Uninterruptable Power Supplies
- **Bulletin 4983** – Surge Protectors and Filters
